BOOK REVIEWS—Volume 77

Note: Entries are listed alphabetically by title. An asterisk (*) denotes books written or edited by Mayo Clinic staff.

A

Ambulatory Medicine Case Book, edited by JP Doyle, LJ Martin—1266

B

Breast Disease for Clinicians, edited by BB Bennett et al—502

Brief Mental Health Interventions for the Family Physician, by MV Bloom, DA Smith—736

Building and Implementing Physician Practice Web Sites, by MA Rothschild—206

C

*Cancer Informatics: Essential Technologies for Clinical Trials, edited by JS Silva et al—1012

Cardiac Arrhythmias in Children and Young Adults With Congenital Heart Disease, edited by EP Walsh et al—878

Cardiology, edited by MH Crawford, JP DiMarco—736

"Chest Pain"→, edited by JW Hurst, DC Morris—602

Clinical Pearls in Refractive Care, by DL Werner, LJ Press—1138

Clinical Trials in Osteoporosis, edited by D Pearson, CG Miller—1266

Comprehensive Clinical Hepatology, edited by JG O'Grady et al—878

Critical Pathways in Cardiology, edited by CP Cannon, PT O'Gara—1398

Critical Thinking in Respiratory Care: A Problem-Based Learning Approach, edited by SC Mishoe, MA Welch Jr—1138

*Current Diagnosis & Treatment in Infectious Diseases, edited by WR Wilson, MA Sande—1012

D

Decision Making in Ear, Nose, and Throat Disorders, edited by CM Alper et al—602

E

Electronic Medical Records: A Guide for Clinicians and Administrators, edited by JH Carter—736

Endocrinology: An Integrated Approach, by SS Nussey, SA Whitehead—1012

Essential Atlas of Nephrology, edited by RW Schrier—104

Evidence-Based Coronary Care, by M Connaughton—104

Evidence-Based Herbal Medicine, edited by M Rotblatt, I Ziment—602

Evidence-based Management of the Acute Coronary Syndrome, edited by R Pifarré, PJ Scanlon—299

Evidence-Based Physical Diagnosis, by S McGee—207

Exercise and Sports Cardiology, edited by PD Thompson—400

F

Fighting Sudden Cardiac Death: A Worldwide Challenge, edited by E Aliot et al—206

Forensic Emergency Medicine, edited by JS Olshaker et al—878

G

Gastrointestinal Oncology: Principles and Practice, edited by DP Kelsen et al—1138

H

*[A] History of Blood Coagulation, by CA Owen Jr, edited by WL Nichols, EJW Bowie—878

Human Sexuality: A Psychosocial Perspective, by RK Westheimer, S Lopater—1266

I

Imaging of Arthritis and Related Conditions: With Clinical Perspectives, edited by GB Greenfield et al—207

Infectious Diseases in Women, edited by S Faro, DE Soper—299

*Inflammatory Diseases of Blood Vessels, edited by GS Hoffman, CM Weyand—1398

M

Management of Adult Urgencies and Emergencies, edited by RB Birrer—1266

N

*Neurologic Complications of Critical Illness, edited by EFM Wijdicks—1266

Neurology Pearls, by AJ Waclawik, TP Sutula—502

O

Obesity, edited by B Gumbiner—300

P

*[The] Pelvic Floor: Its Function and Disorders, edited by JH Pemberton et al—1398

Psychiatric Medication for Older Adults, by C Salzman—736

R

Recognizing Clinical Patterns: Clues to a Timely Diagnosis, by MA Marinella—736

Rheumatoid Arthritis: Plan to Win, by C Koehn et al—878

S

Skin Disease: Diagnosis and Treatment, by TP Habif et al—602

Spiral CT of the Chest, edited by M Rémy-Jardin, J Rémy—206

Sports Supplements, edited by J Antonio, JR Stout—1012

Surgery of the Arthritic Hand and Wrist, edited by A-PC Weiss, H Hastings II—1138

T

Teaching in Your Office: A Guide to Instructing Medical Students and Residents, by PC Alguire et al—104

Techniques in Musculoskeletal Rehabilitation, edited by WE Prentice, MI Voight—299

Telephone Medicine, edited by AB Reisman, DL Stevens—1012

Textbook of Running Medicine, edited by FG O'Connor, RP Wilder—602

Textbook of Rural Medicine, edited by JP Geyman et al—300

*Tissue Engineering and Biodegradable Equivalents: Scientific and Clinical Applications, edited by K-U Lewandrowski et al—1266

20 Common Problems in Sports Medicine, edited by JC Puffer—1138

20 Common Problems: Surgical Problems and Procedures in Primary Care, edited by DC Lynge, BD Weiss—400

U

Understanding Medical Information: A User's Guide to Informatics and Decision Making, by TJ Jordan—1398

W

Whiplash, edited by GA Malanga, SF Nadler—1398

Index to Volume 77

SUBJECTS

A

Abciximab, and pulmonary hemorrhage, 1340

Abdominal aortography, screening for renal artery stenosis in hypertensive patients, 307, 309

Abdominal apoplexy, and Ehlers-Danlos syndrome, 861

Abdominal pain, and epilepsy, 1358; and weight loss, 283

Acquired von Willebrand disease, 181, 1391

Acromegaly, octreotide treatment during pregnancy, 297

Acute myelogenous leukemia, neutropenic colitis after treatment with idarubicin and cytosine arabinoside, 760, 1133

Adenocarcinoma, esophageal, photodynamic therapy, 1176

Adenoma, parathyroid, and carcinoma in multiple endocrine neoplasia type 1, 866

Age at immunization, measles, in US and Canadian children, 446

Aging, and cognitive function, 681

AIDS, counseling newly diagnosed HIV patients, 957; presenting syndromes of HIV, 1097

Airway inflammation, management of asthma symptoms, 1333

Aldosterone-renin ratio, and primary aldosteronism, 202

Alendronate, tolerability of once-weekly, 1029, 1044

Allergic rhinitis, intranasal cromolyn sodium treatment, 350

Ambulatory scalp electroencephalography, role in diagnosing and managing seizures, 991

Amygdalohippocampectomy, for epilepsy with severe abdominal pain, 1358

Amyloidosis, fat aspiration for diagnosis, 1278, 1280

Anal sphincter injury, and fecal incontinence, 271

Anemia, and rapidly progressive jaundice, 83

Anesthesia, for MRI, and paraplegia, 101; regional, for complex regional pain syndrome, 174, 733

Anesthesiologists shortage, 203

Aneurysm, mycotic, after dental extraction, 1125

Angina, unstable, statin lipid-lowering therapy, 1085

Angiography, coronary, and screening abdominal aortography in hypertensive patients, 307, 309; normal findings in patients with chest pain, 296; sex differences in usage after stress testing, 638; with contrast-enhanced CT, 55

Anthrax, confronting bioterrorism, 661; detection by polymerase chain reaction, 624

Anticoagulation, and electrical cardioversion of atrial fibrillation, 895, 897; safer warfarin therapy, 873; withholding from patients with negative CT findings, 130

Antiepileptic drug therapy, for adults, 1367; withdrawal, 1378

Antineoplastic therapy, associated with thrombotic microangiopathy, 323

Antiphospholipid antibody syndrome, and tumor thrombosis due to leiomyosarcoma, 595

Anxiety disorders, hypochondriasis, 1323

Aortic coarctation, operations for recoarctation, 646

Aortic regurgitation, and relapsing polychondritis, 971

Aortography, screening for renal artery stenosis in hypertensive patients, 307, 309

Apophysomyces elegans, infection from snapdragon patch test, 717

Apoplexy, abdominal, and Ehlers-Danlos syndrome, 861

Arousal disorder, female sexual dysfunction, 698

ART AT MAYO CLINIC

Endangered Species by Andy Warhol, 474

Lithographs by Alexander Calder, April

Off on His Own by Maggi Giles, 44

Shamrock by Harry Bertoia, 216

Arterial disease, peripheral obstructive, glutathione treatment, 754

Arterial thrombosis, after hernia repair, 1361

Arteriovenous malformations, and migraine headaches, 1105

Arthritis, septic, due to *Streptococcus sanguis*, 709

Aspergillosis, related to nasal corticosteroid use, 1353

Aspirin, NSAIDs and a lower risk of prostate cancer, 217, 219

Asthma, fluticasone vs montelukast treatment, 437; management of persistent symptoms, 1333

Atrial fibrillation, direct current cardioversion, 895, 897

Attitude, optimism-pessimism and health, 748

Autoclaving, and polymerase chain reaction for bioterrorism agents, 624

Autologous stem cell transplantation, for multiple myeloma, 813

Autonomic tone, as cardiovascular risk factor, 45, 398, 734

B

Bacillus anthracis, detection by polymerase chain reaction, 624

Bacon [Sir Francis] on business, 1001

Barrett esophagus, dysplastic, photodynamic therapy, 1176

BCG, intravesical, associated with *Mycobacterium bovis* vertebral osteomyelitis, 393

β-Blockers, for heart failure, 839, 1199

Biliary tract obstruction, magnetic resonance cholangiopancreatography in patients with suspected choledocholithiasis, 422; summary of NIH consensus conference on endoscopic retrograde cholangiopancreatography, 407

Bioterrorism, 619, 624, 661, 673

Bisphosphonates, and upper gastrointestinal tract problems, 1029, 1031, 1044; gastrointestinal tract safety of risedronate, 262, 601

Bleeding, occult upper gastrointestinal, detection with fecal occult blood tests, 23

Bleeding disorders, acquired von Willebrand disease, 181, 1391

Blood transfusion, and radical retropubic prostatectomy, 1301

Body art, prevalence and complications, 29

Bone fractures in children, and cola beverage consumption, 1005

Bone marrow mast cell burden, in systemic mast cell disease without hematologic disorder, 1169

Bone mineral density, risk indices for osteoporosis, 622, 629

Botulism, confronting bioterrorism, 661

Bracelets, "ionized," for musculoskeletal pain, 1164

Brain stimulation, electroconvulsive therapy for medication-refractory mental illness, 552

BRCA mutations, identifying women at increased risk for breast cancer, 355

Breast cancer, diet and exercise after treatment, 122; HER2 testing, 148; identifying and counseling women at increased risk, 355

Bronchoconstriction, management of asthma symptoms, 1333

C

C282Y genotype, and hemochromatosis, 522
Cancer antigen 125, in patients with chronic liver disease, 538
Cancer immunotherapy, development of peptide vaccines, 339
Candidiasis, presenting syndromes of HIV, 1097
Carcinoid heart disease, metastatic myocardial tumor, 591; surgical pathology, 139
Carcinoma, and parathyroid adenoma in multiple endocrine neoplasia type 1, 866; colon, and thrombotic thrombocytopenic purpura-hemolytic uremic syndrome, 873; pulmonary, and idiopathic pulmonary fibrosis, 763
Cardiac hypertrophy, genetic causes, 1315
Cardiac risk score, prognostic assessment tool for coronary artery disease, 515
Cardiac transplantation, partial normalization of heart rate response to exercise, 1295
Cardiomyopathy, hypertrophic, genetic causes, 1315; peripartum, presenting as acute myocardial infarction, 500; restrictive, due to light-chain deposition disease, 193
Cardiovascular events associated with ma huang, 7, 12, 733
Cardiovascular risk factors, autonomic tone, 45, 398, 734
Cardiovascular surgery, operations for recoarctation, 646
Cardioversion, direct current, for atrial fibrillation, 895, 897
Cardioverter-defibrillators, implantable, role in preventing sudden cardiac death in young patients, 226; unintentional deactivation, 855
Carvedilol, for heart failure, 839, 1199
Castleman disease, human herpesvirus 8–associated, 941
Catheter drainage, echocardiographically guided pericardiocentesis, 429
Cerebrospinal fluid flow rates, in normal-pressure hydrocephalus, 507, 509
Cerebrospinal fluid leaks, intracranial hypertension after treatment, 1241
Characteristics of the epilepsies, 981
Chemoprevention, counseling women at increased risk for breast cancer, 355
Chemotherapy for multiple myeloma, 813
Chest pain, in patients with normal angiographic findings, 296
Chest radiography, for diagnosis of diffuse lung disease, 1221
Childhood porphyrias, 825
Cholangiopancreatography, endoscopic retrograde, summary of NIH consensus conference, 407; magnetic resonance, in patients with suspected choledocholithiasis, 422
Choledocholithiasis, diagnosis by magnetic resonance cholangiopancreatography, 422
Chronic health conditions, risk reduction with diet and exercise, 109, 114, 165
Chronic lymphocytic leukemia, with histoplasmosis and hemophagocytosis, 287
Cirrhotic ascites, and cancer antigen 125, 538
Clinical significance of quality-of-life measures in cancer patients, 367, 371, 384, 479, 488, 561, 572
Coarctation, aortic, reoperations, 646
Cognitive-behavioral therapy, for hypochondriasis, 1323
Cognitive function, and aging, 681
Cola beverage consumption and bone fractures in children, 1005
Colitis, neutropenic, after treatment of acute myelogenous leukemia with idarubicin and cytosine arabinoside, 760
Colonoscopy, screening for colorectal cancer, 951
Colorectal cancer, screening colonoscopy, 951
Common variable immunodeficiency, and giant cell myocarditis, 92
Complex regional pain syndrome, 174, 733
Computed tomography, contrast-enhanced, and coronary angiography, 55; for diagnosis of diffuse lung disease, 1221; of benign intrapulmonary lymph nodes, 329; withholding anticoagulation from patients with negative findings, 130
Conception, preconception care by the nonobstetrical provider, 469, 1133
Confusion, and labile behavior, 557
Congestive heart failure, β-blocker therapy, 839
Constrictive pericarditis, familial, 39
Coronary angiography, and screening abdominal aortography in hypertensive patients, 307, 309; with contrast-enhanced CT, 55
Coronary artery bypass grafting, 72
Coronary artery disease, prognostic assessment tool, 515; sex differences and stress testing, 638
Coronary heart disease, and autonomic tone, 45, 398, 734; prevention with vitamin E in dialysis patients, 295
Coronary revascularization, 72
CORRECTIONS
- Isolated metastatic myocardial carcinoid tumor in a 48-year-old man (2002; 77:591-594), 1396
- Medical and surgical management of hyperparathyroidism (2002;77:87-91), 298
- Upper gastrointestinal tract safety of risedronate: a pooled analysis of 9 clinical trials (2002;77:262-270), 601

Cost minimization, alternative diagnostic approaches to non–small cell lung cancer, 155
Cromolyn sodium, intranasal, for allergic rhinitis, 350
Cutaneous melanoma, adjuvant interferon therapy, 913
Cutaneous microcirculation, effect of glutathione infusion, 754
Cytosine arabinoside, and enterocolitis, 1133; and neutropenic colitis, 760

D

Dental extractions, and mycotic aneurysm, 1125
Depression, medication-refractory, electroconvulsive therapy, 552
Diabetes mellitus, and erectile dysfunction, 276
Dialysis, vitamin E use, and coronary heart disease, 295
Diarrhea, from pheochromocytoma producing vasoactive intestinal peptide, 97
Diastolic heart failure, treatment, 295
Diet and exercise, prevalence of obesity and overweight, 109, 114, 122, 165
Dietary supplements, and adverse cardiovascular events, 7, 12, 733; tiratricol-induced hyperthyroidism, 587; toxic effects associated with zinc, 713
Diffuse lung disease, diagnostic approach, 1221
Direct current cardioversion of atrial fibrillation, 895, 897
Disaster preparedness, bioterrorism, 661
DNA microarray analysis, 927
Drug-related heart disease, valvular disease in patients taking pergolide, 1275, 1280
Dyspnea, and bilateral foot drop, 363

E

Echocardiographically guided pericardiocentesis, 429
EDITORIALS
- Are serious adverse cardiovascular events an unintended consequence of the Dietary Supplement Health and Education Act of 1994? 7
- Bioterrorism preparedness for the public health and medical communities, 619
- Bisphosphonates and the upper gastrointestinal tract: skeletal gain without visceral pain? 1029
- Cerebrospinal fluid dynamics and shunt responsiveness in patients with normal-pressure hydrocephalus, 507
- Diagnosing primary amyloidosis, 1278
- Direct current cardioversion of atrial fibrillation—the next 40 years, 895

Drug-related valvular heart disease: here we go again: will we do better this time? 1275
[The] genomic revolution and medicine, 745
Hot flashes: the old and the new, what is really true? 1155
Inferring long QT1 genotype based on a simple epinephrine infusion protocol: from the bedside to the bench and back, 405
Mayo Clinic Proceedings 2002: new activities, new services, 10
Mayo Clinic Proceedings welcomes new staff members, 747
NSAIDs and a lower risk of prostate cancer: causation or confounding? 217
Past, present, and future of endoscopic retrograde cholangiopancreatography: perspectives on the National Institutes of Health consensus conference, 407
[The] public health problem of increasing prevalence rates of obesity and what should be done about it, 109
Risk indices and osteoporosis screening: scope and limits, 622
Screening for renal artery stenosis: is it justified? 307
Effusive pericarditis, familial, 39
Ehlers-Danlos syndrome, and abdominal apoplexy, 861
Electrical cardioversion, for atrial fibrillation, 895, 897
Electrical muscle stimulation, and force assessment in periodic paralysis, 232
Electroconvulsive therapy, for medication-refractory mental illness, 552
Electroencephalography, ambulatory, role in diagnosing and managing seizures, 991; video, clinical indications and diagnostic yield in patients with seizures and spells, 1111
Electron beam computed tomography, and coronary angiography, 55
Embolism, pulmonary, withholding anticoagulation in patients with negative CT findings, 130; reduced risk with anticoagulation after cardioversion, 895, 897
Emergency transport, oxygen for reducing nausea/vomiting, 35
Endoscopic retrograde cholangiopancreatography, summary of NIH consensus conference, 407; vs magnetic resonance cholangiopancreatography in patients with suspected choledocholithiasis, 422
Energy restriction, prevalence of obesity and overweight, 109, 114, 122, 165
Eosinophilia, bone marrow, in systemic mast cell disease without hematologic disorder, 1169
Ephedrine, adverse cardiovascular events associated with ma huang, 7, 12, 733
Epilepsy, antiepileptic drug therapy for adults, 1367; antiepileptic drug withdrawal, 1378; characteristics, 981; demystifying, 977; family history associated with earlier age at seizure onset, 1291; role of electroencephalography in diagnosis and management, 991; role of neuroimaging in management of seizure disorders, 1251; seizures and multiple sclerosis, 910; video-electroencephalographic monitoring, 1111; with severe abdominal pain, 1358
Epinephrine, infusion-induced QT interval prolongation, 405, 413
Erectile dysfunction, in men with diabetes mellitus, 276
Erythropoietic porphyria, in childhood, 825
Esophageal adenocarcinoma, photodynamic therapy, 1176
Estrogen replacement therapy, gabapentin as alternative treatment for hot flashes, 1155, 1159, 1207
Ethiopian immigrants, and Kaposi sarcoma, 905
Etiopathophysiology of schizophrenia, 1068
Exercise, heart rate response after cardiac transplantation, 1295; prevalence of obesity and overweight, 109, 114, 122, 165
Expression proteomics, 1185

F

Familial pericarditis, 39
Family history of epilepsy, associated with earlier age at seizure onset, 1291
Fat aspiration, for diagnosing amyloidosis, 1278, 1287
Fatigue, and flank pain, 189
Fecal incontinence, diagnosis and management, 271
Fecal occult blood tests, performance differences, 23
Female sexual dysfunction, 698
"Fight or flight," autonomic tone as a cardiovascular risk factor, 45, 398, 734
Flank pain, and fatigue, 189
Flank trauma, and hypertension, 1229
Fluorescence in situ hybridization, HER2 testing in patients with breast cancer, 148
Fluticasone propionate, and aspergillosis, 1353; vs montelukast for asthma, 437
Focal cortical dysplasia, family history of epilepsy associated with earlier age at seizure onset, 1291
Foot drop, and dyspnea, 363
Football injuries, in young players, 317
Force assessment, in periodic paralysis, 232
Fosphenytoin, hypocalcemia-like electrocardiographic changes after intravenous administration, 584
Fractures, barriers to osteoporosis identification and treatment, 334, 875; in children, and cola beverage consumption, 1005
Free fatty acid, effect of lipid infusion on leptin and neuropeptide Y, 1391
Functional imaging, in the management of seizure disorders, 1251
Fungal infection, *Apophysomyces elegans*, from patch test, 717; aspergillosis related to nasal corticosteroid use, 1353

G

Gabapentin, for treating hot flashes, 155, 159, 1207
Gastrointestinal disorders, secondary cause of osteoporosis, 453
Gastrointestinal tract adverse events, and oral bisphosphonates, 1029, 1031, 1044; safety of risedronate, 262, 601
Gastrointestinal tract bleeding, detection with fecal occult blood tests, 23
Gene amplification, HER2 testing in patients with breast cancer, 148
Gene expression analysis, 927
General anesthesia, paraplegia after MRI, 101
Generalized weakness, and Cushing syndrome, 705
Generic medications, hidden dangers, 296
Genetics, causes of cardiac hypertrophy, 1315; history, and sequencing of the human genome, 773, 1395; molecular, principles and methods, 785; of schizophrenia, 1068
Genomics primer, 745, 773, 785, 927
Genotypes, associated with lower risk of lung cancer, 17; C282Y, and hemochromatosis, 522; for long QT syndrome, 407
Giant cell myocarditis, and common variable immunodeficiency, 92
Glucocorticoids, secondary cause of osteoporosis, 453
Glutathione infusion, effect on peripheral artery disease, 754
Granulocyte-macrophage colony-stimulating factor, aerosolized, for Sézary syndrome, 197
Graves disease, and thymic hyperplasia, 495
Group vs individual approaches to understanding changes in quality of life, 384

H

Headache, migraine, diagnosis and treatment, 255, 876
Health and religion, 600

Health anxiety, conceptual model of hypochondriasis, 1323
Health status measures, methods to explain clinical significance, 371; optimism-pessimism and health, 748
Heart failure, β-blocker therapy, 825, 1199; diastolic, treatment, 295; during pregnancy, 500
Heart rate response to exercise, after cardiac transplantation, 1295
Hematopoietic stem cell transplantation, nutritional support, 654
Hematuria, and schistosomiasis, 475
Hemochromatosis, symptoms in patients with *HFE* gene mutations, 522
Hemolytic uremia-thrombotic thrombocytopenic purpura syndrome, and colon cancer, 873
Hemophagocytosis, and chronic lymphocytic leukemia with histoplasmosis, 287
Hemorrhage, pulmonary, and abciximab therapy, 1340
Hepatoerythropoietic porphyria, in childhood, 825
HER2 testing, in patients with breast cancer, 148
Herbal medicine, adverse cardiovascular events associated with ma huang, 7, 12, 733
Hernia repair, and arterial thrombosis, 1361
Herpes simplex virus, detection by polymerase chain reaction, 624
Herpes zoster, presenting syndromes of HIV, 1097
Herpesvirus, Kaposi sarcoma–associated, 941
HFE gene mutations, and hemochromatosis, 522
Histoplasmosis, chronic lymphocytic leukemia, and hemophagocytosis, 287
Historical Profiles of Mayo Clinic: 113 Letters from the Mayo Clinic: a pattern of medical referrals in the early 20th century, 213
History of genetics, 773, 1395
Hormone therapy, for hot flashes, 1155, 1207; gabapentin as alternative treatment for hot flashes, 1155, 1159, 1207
Hospitalists, and primary care physicians, comparison of outcomes of pneumonia care, 1053
Hot flashes, gabapentin treatment, 1155, 1159; pathophysiology and treatment, 1155, 1207
Hot tub use, *Mycobacterium avium* complex, and hypersensitivity pneumonitis, 1233
Human genome sequencing, 773, 1395
Human herpesvirus 8, and absence of Kaposi sarcoma, 905; virology and pathogenetic mechanisms, 941
Human immunodeficiency virus, initial physician-patient encounter, 957; presenting syndromes, 1097
Hydrocephalus, normal-pressure, cerebrospinal fluid flow rate measurements, 507, 509
Hydrofluoroalkane, for treatment of persistent asthma symptoms, 1333
Hypercalcemic crisis, in multiple endocrine neoplasia type 1, 866
Hyperparathyroidism, medical and surgical management, 87, 298
Hypersensitivity pneumonitis, *Mycobacterium avium* complex, and hot tub use, 1233
Hypertension, and flank trauma, 1229; and leg ulcers, 965; and renal artery stenosis, 307, 309; intracranial, after treatment of cerebrospinal fluid leaks, 1241
Hyperthyroidism, secondary cause of osteoporosis, 453; thymic hyperplasia and Graves disease, 495; tiratricol-induced, 587
Hypertrophy, cardiac, genetic causes, 1315
Hypoactive sexual desire, female sexual dysfunction, 698
Hypocalcemia, fosphenytoin-induced electrocardiographic changes, 584
Hypocalcemic therapy, for hyperparathyroidism, 87, 298
Hypochondriasis, conceptual model and treatment, 1323
Hypokalemia, from pheochromocytoma producing vasoactive intestinal peptide, 97

I

Idarubicin, and enterocolitis, 1133; and neutropenic colitis, 760
Idiopathic pulmonary fibrosis, and pulmonary carcinoma, 763
Iliac arterial thrombosis, after hernia repair, 1361
Images and Reflections From Mayo Clinic Heritage, 188, 362, 613, 964, 1182
Immigrant and migrant children, vaccination for measles, mumps, and rubella, 241
Immunization policies, for measles in US and Canadian children, 446
Immunodeficiency, common variable, and giant cell myocarditis, 92
Immunohistochemistry, HER2 testing in patients with breast cancer, 148
Implantable cardioverter-defibrillators, role in preventing sudden cardiac death in young patients, 226; unintentional deactivation, 855
Inguinal hernia repair, and arterial thrombosis, 1361
In vitro fertilization, support groups during treatment, 1060
Incontinence, fecal, diagnosis and management, 271
Infertility, support groups for in vitro fertilization, 1060
Inhaled corticosteroids, fluticasone for persistent asthma, 437; for management of persistent asthma symptoms, 1333
Injuries in youth football, 317
Interferon, adjuvant therapy for resected cutaneous melanoma, 913
International normalized ratio, and precise daily warfarin dosing, 873
Intracranial hypertension, after treatment of cerebrospinal fluid leaks, 1241
Intranasal cromolyn sodium, for allergic rhinitis, 350
Intrapulmonary lymph nodes, computed tomographic comparison with sarcoma metastases, 329
Intravesical BCG, associated with *Mycobacterium bovis* vertebral osteomyelitis, 393
"Ionized" wrist bracelets, for musculoskeletal pain, 1164

J

Jaundice, rapidly progressive, and anemia, 83

K

Kaposi sarcoma, absence in Ethiopian immigrants with human herpesvirus 8, 905; presenting syndromes of HIV, 1097; virology and pathogenetic mechanisms of associated herpesvirus, 941

L

Labile behavior, and confusion, 557
Leg arterial circulation, effect of glutathione infusion, 754
Leg ulcers, and hypertension, 965
Leiomyosarcoma, and fatal tumor thrombosis, 595
Leptin, effect of lipid infusion, 1391
LETTERS TO THE EDITOR
[The] aldosterone-renin ratio and primary aldosteronism, 202
Autonomic tone and benefits of cardiac rehabilitation programs, 398
Carcinoma of the colon in a patient presenting with thrombotic thrombocytopenic purpura-hemolytic uremic syndrome, 873
Chest pain in patients with normal findings on angiography, 296
Chronic sympathetic activation, 734
Complex regional pain syndrome, 733
Does consumption of cola beverages cause bone fractures in children? 1005
Effect of lipid infusion on plasma leptin and neuropeptide Y levels in women, 1391

Enterocolitis as initial presentation of acute myelogenous leukemia exacerbated by induction chemotherapy with idarubicin-cytosine arabinoside, 1133
Gene function far from understood, 1395
Hidden danger of generic medications, 296
Hypothyroidism-related CA 19-9 elevation, 398
Ma huang toxicity, 733
Octreotide treatment of acromegaly during pregnancy, 297
Patient barriers to osteoporosis interventions after fracture, 875
Peripartum cardiomyopathy presenting as an acute myocardial infarction, 500
Refractory acquired von Willebrand disease despite successful treatment of the associated lymphoma, 1391
Religion and health, 600
[The] shortage of anesthesiologists—and other medical specialists, 203
Strategies in the treatment of migraine, 876
Sumatriptan use in patients with migraine, 201
Thalidomide-induced neuropathy, 1395
Thyroid function studies in patients with unintentional weight loss, 20
Toward safer warfarin therapy: does precise daily dosing improve international normalized ratio control? 873
Treatment of diastolic heart failure, 295
Use of low-molecular-weight heparin in pregnant women with mechanical valves, 1133
Vitamin E use in preventing coronary heart disease in patients undergoing dialysis, 295
Leukemia, acute myelogenous, neutropenic colitis after treatment with idarubicin and cytosine arabinoside, 760; chronic lymphocytic, with histoplasmosis and hemophagocytosis, 287
Light-chain deposition disease, and restrictive cardiomyopathy, 193
LightCycler polymerase chain reaction, and bioterrorism agents, 624
Lipid infusion, effect on plasma leptin and neuropeptide Y, 1391
Lipid-lowering therapy, statins for acute myocardial infarction and unstable angina, 1085
Liver disease, cancer antigen 125 in patients with chronic, 538
Long QT syndrome, gene-specific response to epinephrine, 405, 413
Low back pain, and abdominal aortic aneurysm, 849
Low-molecular-weight heparin, in pregnant women, 1133
Lung cancer, and idiopathic pulmonary fibrosis, 763; and tumor lysis syndrome, 722; myeloperoxidase –463 polymorphism associated with lower risk, 17; non–small cell, cost-minimization diagnostic approaches, 155
Lung disease, diffuse, diagnostic approach, 1221
Lymph nodes, benign intrapulmonary, computed tomographic comparison with sarcoma metastases, 329
Lymphadenopathy, presenting syndromes of HIV, 1097
Lymphoma, and acquired von Willebrand disease, 1391; mediastinal, tracheoesophageal stenting for obstruction, 1347

M

Ma huang, temporal association with adverse cardiovascular events, 7, 12, 733
Magnetic deactivation of implantable cardioverter-defibrillator, 855
Magnetic resonance imaging, cholangiopancreatography, in patients with suspected choledocholithiasis, 422; paraplegia after, 101; phase-contrast, in normal-pressure hydrocephalus, 507, 509
Magnetic resonance spectroscopy, role in the management of seizure disorders, 1251
Malignant tracheoesophageal fistula, and mediastinal lymphoma, 1347
Mast cell disease, systemic, without hematologic disorder, 1169
Mayo Clinic National Conference on Medicine and the Media, 1306
Mayo Clinic Proceedings, new activities, 10
Mayo-Roche Rapid Anthrax Test, 673
Measles, immunization policies in US and Canadian children, 446; vaccination in immigrant vs US children, 241
Media and medicine, observations from a national conference, 1306
Mediastinal lymphoma, tracheoesophageal stenting for obstruction, 1347
Mediastinal masses, and thymic hyperplasia in Graves disease, 495
Medical genomics primer, 745, 773, 785, 927, 1185
Medical news dissemination, observations from a national conference, 1306
Medical services utilization, and Parkinson disease, 918
Medication errors, generic drugs, 296
Megesterol, for treatment of hot flashes, 1155, 1207
Melanoma, cutaneous, adjuvant interferon therapy, 913
Memory impairment, and aging, 681
Mental illness, hypochondriasis, conceptual model and therapy, 1323; medication-refractory, electroconvulsive therapy, 552
Metoprolol, for heart failure, 839, 1199
Microangiopathy, thrombotic, associated with antineoplastic therapy, 323
Microarray experiments, and data analysis in medical genomics, 927
Microbial pathogens, rapid detection, 673
Migraine, and arteriovenous malformations, 1105; diagnosis and treatment, 255, 876; sumatriptan treatment, 201
Molecular genetics, principles and methods, 785
Montelukast, vs fluticasone for asthma, 437
Multiple endocrine neoplasia type 1, with parathyroid adenomas, carcinoma, and hypercalcemic crisis, 866
Multiple myeloma, current therapy, 813, 1395; human herpesvirus 8–associated, 941
Multiple sclerosis, and seizures, 910
Mumps, vaccination in immigrant vs US children, 241
Muscle stimulation, electrical, and force assessment in periodic paralysis, 232
Musculoskeletal pain, effect of "ionized" wrist bracelets, 1164
Mycobacterium avium complex, hypersensitivity pneumonitis, and hot tub use, 1233
Mycobacterium bovis vertebral osteomyelitis, and BCG immunotherapy, 393
Mycotic aneurysm, after dental extraction, 1125
Myelogenous leukemia, enterocolitis exacerbated after idarubicin-cytosine arabinoside, 1133; neutropenic colitis after treatment with idarubicin and cytosine arabinoside, 760
Myelopathy, and vitamin B_{12} deficiency, 291
Myeloperoxidase –463 (G→A) polymorphism, associated with lower lung cancer risk, 17
Myocardial carcinoid tumors, 591
Myocardial infarction, due to peripartum cardiomyopathy, 500; statin lipid-lowering therapy, 1085
Myocardial reinnervation, partial normalization of heart rate response to exercise after cardiac transplantation, 1295
Myocarditis, giant cell, and common variable immunodeficiency, 92

N

Nasal corticosteroids, and aspergillosis, 1353
National conference on medicine and the media, 1306
National Institutes of Health consensus conference on cholangiopancreatography, summary, 407

Nausea, reduction with oxygen during emergency transport, 35
Neuroimaging, role in management of seizure disorders, 1251
Neuropeptide Y, effect of lipid infusion, 1391
Neuropsychiatric disease, genetics and etiopathophysiology of schizophrenia, 1068
Neutropenic colitis, associated with idarubicin and cytosine arabinoside therapy for myelogenous leukemia, 760
News dissemination, medical, observations from a national conference, 1306
Nonsteroidal anti-inflammatory drugs, and lower prostate cancer risk, 217, 219
Non–small cell lung cancer, and tumor lysis syndrome, 722; cost-minimization diagnostic approaches, 155
Normal-pressure hydrocephalus, cerebrospinal fluid flow rate measurements, 507, 509
NSAIDs, and lower risk of prostate cancer, 217, 219
Nursing home services, and Parkinson disease, 918
Nutritional support, for hematopoietic stem cell transplantation, 654

O

Obesity, in a Midwestern population, 114; in women treated for breast cancer, 122; primary care physicians' duty to prescribe exercise to reduce health risks, 165; public health problem, 109
Obstetrics, preconception care by the nonobstetrical provider, 469, 1133
Octreotide, for treatment of acromegaly during pregnancy, 297
Oligonucleotide microarrays, data analysis in medical genomics, 927
Opioids, for complex regional pain syndrome, 174, 733
Optimism-pessimism and health, 748
Orgasmic disorder, female sexual dysfunction, 698
Orthopedic surgeons, and barriers to identification and treatment of osteoporosis, 334, 875
Osteomyelitis, complication of BCG immunotherapy, 393
Osteoporosis, barriers to identification and treatment, 334, 875; gastrointestinal tract safety of risedronate, 262, 601; oral bisphosphonates and upper gastrointestinal tract problems, 1029, 1031; risk indices, 622, 629; secondary causes, 453, 1005; tolerability of once-weekly alendronate, 1029, 1044
Oxygen, to reduce nausea during emergency transport, 35

P

Pain, chest, and normal angiography, 296; complex regional pain syndrome, 174, 733; flank, and fatigue, 189; low back, and abdominal aortic aneurysm, 849; migraine, diagnosis and treatment, 255, 876; musculoskeletal, effect of "ionized" wrist bracelets, 1164
Pain-free walking distance, prolonged with glutathione treatment of peripheral arterial disease, 754
Paralysis, periodic, force assessment after electrical muscle stimulation, 232
Paraplegia, after general anesthesia for MRI, 101
Parathyroid adenoma, and carcinoma in multiple endocrine neoplasia type 1, 866
Parathyroid surgery, for hyperparathyroidism, 87, 298
Parkinson disease, medical services utilization and prognosis, 918
Patch test, snapdragon, and *Apophysomyces elegans* infection, 717
Peptide vaccines for cancer, 339
Percutaneous coronary intervention, pulmonary hemorrhage after abciximab therapy, 1340
Percutaneous transluminal coronary angioplasty, 72
Pergolide, and valvular heart disease, 1275, 1280
Pericardial effusions, treatment with echocardiographically guided pericardiocentesis, 429
Pericardiocentesis, echocardiographically guided, 429
Pericarditis, familial, 39
Periodic paralysis, force assessment after electrical muscle stimulation, 232
Peripartum cardiomyopathy, presenting as acute myocardial infarction, 500
Peripheral artery disease, glutathione treatment, 754
Peripheral neuropathy, and fat aspiration for diagnosing amyloidosis, 1278, 1287
Perspectives on clinical significance of quality-of-life scores, 488
Pessimism-optimism and health, 748
Phase-contrast magnetic resonance imaging, in normal-pressure hydrocephalus, 507, 509
Phenytoin, fosphenytoin-induced hypocalcemia-like electrocardiographic changes, 584
Pheochromocytoma, producing vasoactive intestinal peptide, 97
Photodynamic therapy, for Barrett esophagus and adenocarcinoma, 1176
Photolithography, data analysis in medical genomics, 927
Photopheresis, extracorporeal, for Sézary syndrome, 197
Physical activity, prescription to sedentary patients, 165
Physical therapy, for complex regional pain syndrome, 174, 733
Physician practice, comparison of outcomes of pneumonia care between hospitalists and primary care physicians, 1053
Piercing and tattooing, prevalence and complications, 29
Plague, confronting bioterrorism, 661
Pneumonia care, differences between hospitalists and primary care physicians, 1053
Pneumonitis, hypersensitivity, associated with *Mycobacterium avium* complex and hot tub use, 1233
Polychondritis, relapsing, cardiovascular complications, 971
Polymerase chain reaction, and bioterrorism agents, 624; for rapid detection of microbial pathogens, 673
Porphyria cutanea tarda, in childhood, 825
Positron emission tomography, in the management of seizure disorders, 1251
Postural tachycardia syndrome, and sinus node abnormalities, 246; patients' quality of life, 531
Preconception care, by the nonobstetrical provider, 469, 1133
Pregnancy, and octreotide treatment of acromegaly, 297; peripartum cardiomyopathy, 500; preconception care by the nonobstetrical provider, 469, 1133
Primary aldosteronism, and the aldosterone-renin ratio, 202
Primary care physicians, and barriers to osteoporosis identification and treatment, 334, 875; and hospitalists, comparison of outcomes of pneumonia care, 1053; obligation to prescribe exercise to sedentary patients, 165; treating newly diagnosed HIV patients, 957
Primary effusion lymphoma, human herpesvirus 8–associated, 941
Primer on Medical Genomics, 745, 773, 785, 927, 1185
Procollagen gene mutation, and abdominal apoplexy in Ehlers-Danlos syndrome, 861
Prognostic assessment tool for coronary artery disease, 515
Prophylactic surgery, for women at increased risk for breast cancer, 355
Prostate cancer, and nonsteroidal anti-inflammatory drug use, 217, 219
Prostatectomy, radical retropubic, and blood transfusion, 1301
Proteomics, expression, 1185
Protoporphyria, erythropoietic, in childhood, 825

Pseudomonas aeruginosa, causing carotid aneurysm after dental extraction, 1125
Public health problems, obesity, 109, 114, 165
Pulmonary carcinoma, and idiopathic pulmonary fibrosis, 763
Pulmonary embolism, withholding anticoagulation from patients with negative CT findings, 130
Pulmonary fibrosis, and carcinoma, 763
Pulmonary hemorrhage, and abciximab therapy, 1340
Pulmonary nodules, computed tomographic comparison with sarcoma metastases, 329

Q

QT interval prolongation, epinephrine-induced gene-specific response in congenital long QT syndrome, 405, 413
Quality of life, clinical significance of measurements in cancer patients, 367, 371, 384, 479, 488, 561, 572; in patients with postural tachycardia syndrome, 531

R

Radical retropubic prostatectomy, and blood transfusion, 1301
Radiological patterns, in diffuse lung disease, 1221
Rapid-cycle real-time polymerase chain reaction, for detection of microbial pathogens, 673
Recoarctation, reoperations, 646
Recombinant tissue-type plasminogen activator, for acute ischemic stroke, 542
Reflex sympathetic dystrophy, 174, 733
Regional anesthesia, for complex regional pain syndrome, 174, 733
Relapsing polychondritis, cardiovascular complications, 971
Religion and health, 600
Renal artery stenosis, and hypertension, 307, 309
RESIDENTS' CLINICS
26-year-old man with rapidly progressive jaundice and anemia, 83
58-year-old man with fatigue and flank pain, 189
58-year-old woman with abdominal pain, 283
61-year-old man with dyspnea and bilateral foot drop, 363
16-year-old boy with gross hematuria, 475
31-year-old woman with confusion and labile behavior, 557
68-year-old man with generalized weakness, 705
71-year-old woman with low back pain, 849
65-year-old woman with painful leg ulcers, 965
23-year-old woman with increasing frequency of migraine headaches, 1105
23-year-old man with hypertension and flank trauma, 1229
Restrictive cardiomyopathy, due to light-chain deposition disease, 193
Retropubic prostatectomy, and blood transfusion, 1301
Rhinitis, allergic, intranasal cromolyn sodium treatment, 350
Risedronate, gastrointestinal tract safety, 262, 601
Risk factors for breast cancer, identification and counseling, 355
Risk indices for osteoporosis, 622, 629
Robert L. Frye Lecture: Coronary revascularization on balance, 72; Genetic causes of inherited cardiac hypertrophy, 1315
Rubella, vaccination in immigrant vs US children, 241

S

Sarcoma metastases, computed tomographic comparison with benign intrapulmonary lymph nodes, 329
Schistosomiasis, and gross hematuria, 475
Schizophrenia, genetics and etiopathophysiology, 1068
Screening abdominal aortography, in hypertensive patients, 307, 309
Screening colonoscopy, for colorectal cancer, 951
Sedentary patients, primary care physicians' obligation to prescribe exercise to reduce chronic health risks, 165
Seizures, and multiple sclerosis, 910; antiepileptic drug therapy for adults, 1367; antiepileptic drug withdrawal, 1378; characteristics of epilepsies, 981; demystifying epilepsy, 977; earlier age at onset associated with family history of epilepsy, 1291; role of electroencephalography in diagnosis and management, 991; role of neuroimaging in management, 1251; video-electroencephalographic monitoring, 1111; with severe abdominal pain, 1358
Sensorimotor peripheral neuropathy, and fat aspiration for diagnosing amyloidosis, 1278, 1287
Septic arthritis, due to *Streptococcus sanguis*, 709
Sequencing the human genome, 773, 1395
Seropositivity, for measles, mumps, and rubella antibodies, in immigrant vs US children, 241
Sex differences and stress testing, 638
Sexual dysfunction, in females, 698
Sézary syndrome, treatment with extracorporeal photopheresis and aerosolized granulocyte-macrophage colony-stimulating factor, 197
Shunting, ventriculoperitoneal, for normal-pressure hydrocephalus, 507, 509
Sildenafil, for erectile dysfunction in diabetic men, 276
Single-item vs multi-item quality-of-life measurements, 479
Single-photon emission computed tomography, in the management of seizure disorders, 1251
Sinus node abnormalities, in patients with postural tachycardia syndrome, 246
Skin cancer, adjuvant interferon therapy, 913
Small cell lung cancer, and tumor lysis syndrome, 722
Smallpox, confronting bioterrorism, 661
Snapdragon patch test, and *Apophysomyces elegans* infection, 717
Sphincteroplasty, for management of fecal incontinence, 271
Sports medicine, youth football injuries, 317
STAMP VIGNETTE
Bishop, J. Michael, 1312
Delano, Jane, 1026
Haworth, Walter, 108
Hodgkin, Dorothy, 403
Ilizarov, Gavriel A., 304
Minot, George R., 1150
Montagnier, Luc, 506
Mullis, Kary B., 606
Palade, George, 892
Sanger, Frederick, 212
Yalow, Rosalyn, 4
Statin lipid-lowering therapy, for acute myocardial infarction and unstable angina, 1085
Stem cell transplantation, autologous, for multiple myeloma, 813; hematopoietic, nutritional support, 654
Stenosis, renal artery, and hypertension, 307, 309
Stenting, tracheoesophageal, for obstruction from mediastinal lymphoma, 1347
Streptococcus sanguis, causing septic arthritis, 709
Stress management, support groups for in vitro fertilization, 1060
Stress testing, sex differences, 638
Stroke, thrombolytic treatment, 542
Subcarinal lymphadenopathy, and non–small cell lung cancer, cost-minimization diagnostic approaches, 155
Sudden cardiac death, in young patients, role of implantable cardioverter-defibrillators in prevention, 226
Sumatriptan, for migraine, 201

Support groups for in vitro fertilization, 1060
Surgical pathology of carcinoid heart disease, 139
SYMPOSIUM ON SEIZURES
Antiepileptic drug therapy for adults: when to initiate and how to choose, 1367
Antiepileptic drug withdrawal: literature review, 1378
Characteristics of the epilepsies, 981
Clinical indications and diagnostic yield of video-electroencephalographic monitoring in patients with seizures and spells, 1111
Demystifying seizures and epilepsy: introduction to the Symposium on Seizures, 977
Role and limitations of routine and ambulatory scalp electroencephalography in diagnosing and managing seizures, 991
Role of neuroimaging in the management of seizure disorders, 1251
SYMPOSIUM ON THE CLINICAL SIGNIFICANCE OF QUALITY-OF-LIFE MEASURES IN CANCER PATIENTS
Assessing clinical significance in measuring oncology patient quality of life: introduction to the symposium, content overview, and definition of terms, 367
Assessing meaningful change in quality of life over time: a users' guide for clinicians, 561
Assessing the clinical significance of single items relative to summated scores, 479
[The] clinical significance of quality-of-life results: practical considerations for specific audiences, 572
Group vs individual approaches to understanding the clinical significance of differences or changes in quality of life, 384
Methods to explain the clinical significance of health status measures, 371
Patient, clinician, and population perspectives on determining the clinical significance of quality-of-life scores, 488
Systemic mast cell disease, without hematologic disorder, 1169

T

Tachycardia, postural, and sinus node abnormalities, 246; postural, quality of life, 531
Tamoxifen, for women at increased risk for breast cancer, 355
Tattooing, prevalence and complications, 29
Thalidomide, for multiple myeloma, 813, 1395
Thrombolytic treatment, of acute ischemic stroke, 542
Thrombotic microangiopathy, associated with antineoplastic therapy, 323
Thrombotic thrombocytopenic purpura-hemolytic syndrome, and colon cancer, 873
Thymic hyperplasia, and Graves disease, 495
Thyroid function studies, in patients with unintentional weight loss, 201
Tiratricol, causing hyperthyroidism, 587
Total parenteral nutrition, and stem cell transplantation, 654
Toxic effects associated with zinc, 713
Tracheoesophageal stenting, for obstruction from mediastinal lymphoma, 1347
Transcranial magnetic stimulation, for medication-refractory mental illness, 552
Transfusion, perioperative, and prostatectomy, 1301
Transplantation, cardiac, partial normalization of heart rate response to exercise, 1295; stem cell, for multiple myeloma, 813; stem cell, nutritional support, 654
Transplantation-associated osteoporosis, 453
Trauma, oxygen to reduce nausea during emergency transport, 35
Tricuspid regurgitation, in patients taking pergolide, 1275, 1280
Triptans, for treatment of migraine, 255, 876
Tularemia, confronting bioterrorism, 661
Tumor lysis syndrome, and lung cancer, 722
Tumor thrombosis, due to leiomyosarcoma, 595
Tumor vaccines, 339

U

Understanding changes in quality of life, group vs individual approaches, 384
Unintentional weight loss, investigative thyroid function studies, 201
Unstable angina, statin lipid-lowering therapy, 1085
Uremia, and renal thrombotic microangiopathy associated with antineoplastic therapy, 323

V

Vaccinations, age at immunization for measles in US and Canadian children, 446; for measles, mumps, and rubella in immigrant vs US children, 241
Vaccines for cancer, 339
Vaccinia virus, detection by polymerase chain reaction, 624
Vacuum-constriction devices, for erectile dysfunction in diabetic men, 276
Vagus nerve stimulation, for medication-refractory mental illness, 552
Valve dysfunction, surgical pathology of carcinoid heart disease, 139
Valvular heart disease, in patients taking pergolide, 1275, 1280
Varicella-zoster virus, detection by polymerase chain reaction, 624
Vasoactive intestinal peptide, pheochromocytoma producing, 97
Venlafaxine, for treatment of hot flashes, 1155, 1207
Ventriculoperitoneal shunting, for normal-pressure hydrocephalus, 507, 509
Vertebral osteomyelitis, complication of BCG immunotherapy, 393
Video-electroencephalographic monitoring, clinical indications and diagnostic yield in patients with seizures and spells, 1111
Viral hemorrhagic fevers, confronting bioterrorism, 661
Vitamin B_{12} deficiency, and reversible myelopathy, 291
Vitamin E, and coronary heart disease in dialysis patients, 295
Vomiting, reduction with oxygen during emergency transport, 35
von Willebrand disease, acquired, 181, 1391

W

Walking distance, pain-free, prolonged with glutathionine treatment of peripheral artery disease, 754
Warfarin therapy, precise daily dosing, 873
Weakness, generalized, and Cushing syndrome, 705
Weight control, in a Midwestern population, 114; in women treated for breast cancer, 122; primary care physicians' duty to prescribe exercise, 165; public health problem of obesity, 109
Weight loss, and abdominal pain, 283; unintentional, investigative thyroid function studies, 201
Wrist bracelets, "ionized," for musculoskeletal pain, 1164

Z

Zinc, toxic effects, 713
